Igualdad a través de la educación ■ Equality through education

Elisa Briseno **Winter 2007 Intern**

- University of California, Santa Barbara
- Major: Political Science
- Experience at the HNBF:

My experience taught me the importance of networking and I had the opportunity to meet important leaders amongst the Hispanic community at the MALDEF reception. I have to admit I was intimidated because I did not know how to approach these people, but I soon learned that politicians and political activists are just regular people who are passionate about what they do. At the HNBF I learned how to create a webpage, write proposals, write press releases, amongst other tasks so do not be afraid to try something new. I really learned a lot from my internship and hope future interns learn just as much or more than I did during my stay at the HNBF.
